3. The construction contract is entered into between the following parties:

This image is a high-contrast, black-and-white abstract pattern. It consists of a dense, repeating arrangement of small, stylized symbols across the entire frame. The primary motif is a small, dark, rectangular shape with a cross-like internal structure, resembling a simplified building or a stylized figure. These are interspersed with various other small elements, including solid black triangles, thin vertical and horizontal lines, and small circular dots. The overall effect is a complex, textured field of geometric and organic forms, creating a sense of depth and movement. The pattern is uniform in its distribution, with no clear focal point, suggesting a continuous, infinite design.
